SUBJECT: Professional Service Agreement with Wightman for Real Time Decision Support System; Smart Sewer Shed- Phase I (Bid Ref# 92500-002.0.12)

RECOMMENDATION:

It is recommended that the City Commission approve a Professional Service Agreement with Wightman for Real Time Decision Support System; Smart Sewer Shed- Phase I in the amount of \$197,300.

BACKGROUND:

The Kalamazoo Water Reclamation Plant (Plant) is a Regional Advanced Activated Sludge Wastewater Treatment Plant which receives flow from various Retail and Wholesale Customer Communities. Utilizing existing means and methods, the Wastewater Division operates our hydraulic infrastructure on a reactive response. Also, sewer maintenance is currently primarily performed on an emergency response demand system with limited ability to perform productive sewer maintenance based on system need.

The primary goal of this project is to increase operational flexibility of our hydraulic infrastructure and efficiencies of performed system demand maintenance while decreasing long term maintenance costs and decreasing the adverse impacts on downstream systems and customers. The secondary goal of this project is to determine future increased capacity needs within the existing service area as well as inflow and infiltration reductions to gain increased value in our existing sewer pipe network.

STRATEGIC VISION ALIGNMENT:

Relevant Priority Based Budgeting Program (program name and description):

Primary - remove settleable solids from the waste stream to be dewatered and landfilled.

Strategic Goal Impact:

Good Governance – Organizational Resources.

Safe Community – Water Management & Delivery

Environmental Responsibility – Water Management

Environmental Responsibility – Sustainability & Conservation

Economic Vitality – Asset Management

COMMUNITY ENGAGEMENT:

Appropriate Depth of Engagement

Internal – no feasible alternatives available due to regulatory restrictions, operational standards and best practices.

FISCAL IMPACT:

Funding for the equipment procurement of this project is available via 5-year Capital Improvement Program (CIP) approved budget in project #wwr0100228 Real Time Decision Support System.

Fiscal Budget Breakdown:

2020 – via FY 2020 adopted CIP Project budget	\$197,300.00
2021 – via FY 2021 Carry Forward 2020 adopted budget	\$702,700.00
2022 – via FY 2021 proposed 5-year CIP budget	\$500,000.00
2023 – via FY 2021 proposed 5-year CIP budget	\$250,000.00
2024 – via FY 2021 proposed 5-year CIP budget	\$250,000.00
	\$1,900,000.00
