

City Commission Agenda Report

City of Kalamazoo

Date: **2/15/2021**

Item: **G.1.**

TO: Mayor Anderson, Vice Mayor Griffin, and City Commissioners

FROM: James K. Ritsema, ICMA-CM, City Manager
Reviewed by: James J. Baker, PE, Public Services Director and City Engineer
Prepared by: George H. Waring, E.I.T., Public Works Senior Civil Engineer

DATE: February 15, 2021

SUBJECT: Professional Service Agreement with OHM Advisors for Inkster Bridge Design Services (Bid Ref# 906-46-015.1.12)

RECOMMENDATION:

It is recommended that City Commission approve the OHM Advisors proposal in the amount of \$100,000 for Inkster bridge design and engineering services and authorize the City Manager to sign all documents. OHM Advisors is a prequalified vendor and has assisted the City of Kalamazoo with the Inkster Bridge application for the Local Bridge Program and provided consulting services to the City.

BACKGROUND:

The March 2020 inspection of the Inkster Avenue bridge by OHM discovered problems with the north sidewalk support girder and south railing. Repair of the girder and re-alignment of the bearings were performed to keep the bridge in service. The south bridge railing has been protected, with barriers to restrict traffic. However, the bridge is still in need of full redesign. Repairs were made as an interim measure before design and construction can take place. Funding for construction of the Inkster bridge is planned to be acquired through the Local Bridge Program. To be prepared for when funding becomes available, the City would like to proceed with design for the replacement of the bridge.

STRATEGIC VISION ALIGNMENT:

Relevant Priority Based Budgeting Program (program name and description):

Asphalt Repair & Surfacing Replacement and repair of deteriorated asphalt surfaces evaluated and based on the PASER system, the statewide standard of pavement condition reporting.

Strategic Goal Impact:

Safe Community- Creating a safe environment for living, working, and playing

Connected City - A City networked for walking, biking, riding, and driving

COMMUNITY ENGAGEMENT:

Appropriate Depth of Engagement

Inform (one-way conversation) – no feasible alternatives available due to legal/regulatory restrictions, standards and best practices, or resource limitations; the community will be made aware of the project.

Engagement/Communication Tools

Press releases, public notices, website publication, and other such public communication tools will be used to ensure community is aware and can prepare and act accordingly. Future work will be impacted by the design and will involve motorists needing to detour their commute and traffic patterns during various phases of the project.

FISCAL IMPACT:

This project is included in the 2021 Adopted Local Streets Capital Improvement plan in project#1st0100279 Inkster Bridge. The remaining budget will be funded by transfers from unspent 2020 carryforward budgets within the Local Streets Capital Improvement plan.
