SUBJECT: Professional Services Agreement with Prein & Newhof for the 2022 Northside Non-Copper Service Replacement Project (Bid Ref#92500-002.0.9)

RECOMMENDATION:

It is recommended that the City Commission approve a Professional Service Agreement with Prein & Newhof for Professional Services related to the 2022 Northside #1 Non-Copper Service Replacement Project, in the amount of \$198,600.00.

BACKGROUND:

The City of Kalamazoo Public Services Department has routinely replaced lead services.

Starting in 2017, an increased effort was dedicated to the removal of non-copper services in the water system, replacing over 500 non-copper services on future road project inside the City of Kalamazoo as well as Kalamazoo Township. In 2021, 940 non-copper services were replaced.

With the increase in number of replacements to be done, it has been necessary to hire outside contractors for construction engineering services.

The Water Resources Division requested a quote from Prein & Newhof for professional services related to construction engineering of the outside contractual lead service replacement work.

The 2022 Northside #1 Non-Copper Service Replacement Project is being funded by Booker Funding through the Michigan Department of Environment, Great Lakes, and Energy (EGLE) and approximately 400 houses are in the project to have their service line inspected and replaced with copper if the existing service is non-copper. Prein & Newhof provided a quote of \$198,600.00 for the construction engineering work. Prein & Newhof performed the same work last year, and Water Resources was very pleased with the results. Water Resources recommends approval of the contract.

STRATEGIC VISION ALIGNMENT:

Strategic Goal Impact:
Safe Community

COMMUNITY ENGAGEMENT:

Appropriate Depth of Engagement
Inform & Consult for scheduling

Discussion:

Letters will be sent to customers to notify them of the upcoming project. As the contractor is getting ready to schedule with customers in specific areas, door hangers will be delivered to notify them that it is time to schedule their inspection and/or replacement.

FISCAL IMPACT:

The funding for the project is available in the City's 2022 Water Capital Improvement Budgets with EGLE Booker Funding. Project funding and estimated costs are as follows:

Funding:	wat0500410	\$198,600.00
		\$198,600.00
Costs:	Construction Engineering	\$198,600.00
		\$198,600.00
