

City Commission Agenda Report

City of Kalamazoo

Date: **4/4/2022**

Item: **G.6.**

TO: Mayor Anderson, Vice Mayor Cooney, and City Commissioners

FROM: James K. Ritsema, ICMA-CM, City Manager
Reviewed by: James J. Baker, PE, Public Services Director and City Engineer
Prepared by: JoAnna C. Crandall, PE, Senior Civil Engineer – Water Resources

DATE: April 4, 2022

SUBJECT: Professional Service Agreement with Prein & Newhof for the 2023 EGLE DWRP Project Plan & Water System Improvements Design (Bid Ref#92500-002.0.9)

RECOMMENDATION:

It is recommended that the City Commission approve a professional service agreement with Prein & Newhof for the Michigan Department of Environment, Great Lakes, and Energy Drinking Water Revolving Fund (EGLE DWRP) Water System Improvements, in the amount of \$264,350 and amend the Water Capital Improvement Plan for anticipated DWRP funding by the same.

BACKGROUND:

The Department of Public Services has been working with Prein & Newhof on the FY2023 EGLE DWRP application. The FY2023 EGLE DWRP project has a proposed scope to replace up to 1500 non-copper service lines and approximately 3 miles of water main replacement. Public Services requested a proposal from Prein & Newhof for professional services related to EGLE DWRP application assistance and design. Prein & Newhof provided a quote of \$264,350. Public Services finds this quote acceptable and recommends approval of this purchase order.

STRATEGIC VISION ALIGNMENT:

Strategic Goal Impact:
Safe Community

COMMUNITY ENGAGEMENT:

Appropriate Depth of Engagement

Inform (one-way conversation) – no feasible alternatives available due to legal/regulatory restrictions, standards and best practices, or resource limitations; the community will be made aware of the project.

Engagement/Communication Tools

Send letters to customers in the impacted area.

FISCAL IMPACT:

The funding for the planning and design of this project is anticipated to be funded retroactively with future DWRF bond funding. The budget amendment requested will allow for the cost of this design work to be funded by the anticipated DWRF funds and allow for existing resources to be utilized for planned projects in 2022. If the funding falls through, the Water Fund has adequate resources to fund this contract. Project funding and estimated costs are as follows:

Project #wat0500412 Northside Lead #2 & Water Main Replacements (DWRF)

Funding: 2023 DWRF \$264,350

Costs: Design \$264,350
