DATE: July 17, 2023

SUBJECT: Approve a Professional Service Agreement with Wightman for Whites Road Watermain & Roadway Construction Engineering (Bid Ref# 92549-001.0.11)

RECOMMENDATION:

It is recommended that City Commission approve a Professional Service Agreement with Wightman & Associates for construction engineering (CE) services for the Whites Road Watermain & Roadway Project and authorize the City Manager to sign all documents.

BACKGROUND:

Whites Rd is a key East/West corridor in the City of Kalamazoo connecting Oakland Drive to Westnedge Ave. It serves as a key street for the neighborhoods of Oakland/Winchell, Oakwood, Westnedge Hill, and South Westnedge. Due to the age and condition of the roadway, the City competed for allocated federal money through the Kalamazoo Area Transportation Study (KATS) MPO via their Transportation Improvement Plan (TIP) process. The project was accepted and funds were assigned to it from the Surface Transportation Program.

Whites Road (Oakland Drive to Westnedge Ave) will see construction activities for watermain replacement (federal non-participating work), storm water improvements, signal and intersection updates, and road resurfacing. Lane configuration changes will also occur from a four-lane configuration to a three-lane configuration. These improvements will provide continued services for all corridor users, businesses, and residents along Whites road for years to come. The work for Whites Rd is anticipated to start in late summer of 2023 and complete construction in November of 2024.

Wightman & Associates was the City's design consultant for the project. They are fully qualified for providing CE services for the project. Public Services recommends their services.

STRATEGIC VISION ALIGNMENT:

Strategic Goal Impact:

Shared Prosperity - Abundant opportunities for all people to prosper

Safe Community- Creating a safe environment for living, working, and playing

Connected City - A City networked for walking, biking, riding, and driving

Complete Neighborhoods - residential areas that support the full range of people's daily needs

Economic Vitality - A supportive infrastructure for growing businesses and stabilizing the local economy for the benefit of all.

Good Governance- Ensuring the City organization has the capacity and resources to effectively implement the community's Strategic Vision in a way that is sustainable over the long term.

COMMUNITY ENGAGEMENT:

Appropriate Depth of Engagement

Inform (one-way conversation) – no feasible alternatives available due to legal/regulatory restrictions, standards and best practices, or resource limitations; the community will be made aware of the project.

Discussion:

Media releases, social media, neighborhood associations, website, mailers, etc.
