SUBJECT: Approval of a Professional Service Agreement with Wightman & Associates for Construction Engineering services for the Michikal Improvements Project (Bid Ref#: 92549-001.0.11)

RECOMMENDATION:

It is recommended that the City Commission approve a professional service agreement with Wightman & Associates for Construction Engineering (CE) services in support of the Michikal Improvements project in the amount of \$214,050.00 and authorize the City Manager to sign all documents.

BACKGROUND:

A contract has been approved for the reconstruction of Michikal Street, and work is expected to begin in coming weeks. This major project will be the first of several that will transition Kalamazoo's downtown streets from one-way traffic to two-way. To oversee construction and effectively administer the contract, the Public Works Division reached out to Wightman & Associates for a proposal for CE services. Wightman has seen through the engineering design of this project, is currently involved in design for the adjacent Kalamazoo/Douglas/W Main project, and has a high degree of familiarity with all aspects of the two-way conversion. They have provided CE services to the City on past projects with satisfactory results. Thus, Public Works is recommending acceptance of Wightman's proposal.

For nearly 50 years the City of Kalamazoo has discussed and debated its one-way Downtown Street network. With the clear input from Imagine Kalamazoo 2025, control over our streets from the 2019 jurisdictional transfer, 2019-20 Street Network Design project input, and engineering reports supporting the resulting community vision, we are now well underway in making this a reality.

The Michikal project will be followed by W Main Street, Douglas Avenue, and the first part of Kalamazoo Avenue in 2025. This project will be broken up into two portions with the first half

constructed this year and the second half completed prior to finishing Michigan Avenue and putting two way traffic on Kalamazoo Avenue. This first portion of work is funded through local funds with the second portion being funded through the recently announced PROTECT grant.

In addition to the conversion from one way to two way traffic flow, this project will contain pedestrian enhancements and new public space. These changes meet the community's goals of streets that are safe and comfortable for all users. This work will have a profound impact on economic vitality in and around Downtown and reconnect the Downtown with adjacent neighborhoods.

STRATEGIC VISION ALIGNMENT:

Strategic Goal Impact:

Shared Prosperity - Abundant opportunities for all people to prosper

Safe Community- Creating a safe environment for living, working, and playing

Connected City - A City networked for walking, biking, riding, and driving

Environmental Responsibility - A green and healthy City.

Good Governance- Ensuring the City organization has the capacity and resources to effectively implement the community's Strategic Vision in a way that is sustainable over the long term.

COMMUNITY ENGAGEMENT:

Appropriate Depth of Engagement

Collaborate (two-way conversation) - the community will have a chance to shape the project by providing feedback.

Discussion:

Previously:

- IK 2025 Master Plan Engagement Process
- Focus group sessions and collaboration
- CDM Smith Street Design Project
- Website, social media ,and neighborhood meetings

Currently & Future:

- Public Information and Engagement Meetings
- Website, mailers, social media, and neighborhood/business meetings

Engagement/Communication Tools

Social media, website, mailers, focus group meetings, and public meetings

FISCAL IMPACT:

The funds required for this contract are \$214,050.00. The funding available and estimated costs are detailed below. We are requesting the approval of this purchase using the funds below.

SUBJECT: Approve a contract supplemental with Wightman & Associates for Kalamazoo Avenue 2-Way Conversion Design (Bid Ref#: 92549-002.0)

RECOMMENDATION:

It is recommended that City Commission approve a contract supplemental with Wightman & Associates for Kalamazoo Avenue 2-Way Conversion Design in the amount of \$229,000.00.

BACKGROUND:

Wightman & Associates are the competitively selected design consultants on the Kalamazoo Avenue 2-Way Conversion Design project. The design work is among the largest of projects the City of Kalamazoo has seen since the 1960s. When the project for design of this 2-way conversion was originally scoped, the level of effort was less than what has now been realized. Due to the City's commitment to public engagement, high quality of planning and engineering, and coordination efforts with downtown development (i.e. The Event Center), the original scope needed revision.

The City requested a revision in scope and additional items from Wightman & Associates to see the 2-way project through the design and bid phase. Wightman & Associates provided a proposal for this additional work to meet the City's goals of Streets for All on Michikal, Main, Douglas, and Kalamazoo Avenue. Staff have reviewed the proposal and approve of the scope. The items included are necessary to project success and the final delivery of construction ready plans and documents for this important step in Kalamazoo's future as a City.

STRATEGIC VISION ALIGNMENT:

Strategic Goal Impact:

Complete Neighborhoods - residential areas that support the full range of people's daily needs
Connected City - A City networked for walking, biking, riding, and driving

Economic Vitality - A supportive infrastructure for growing businesses and stabilizing the local economy for the benefit of all.

Inviting Public Places - Vibrant streets, exceptional parks, and welcoming activities.

Environmental Responsibility - A green and healthy City.

Good Governance- Ensuring the City organization has the capacity and resources to effectively implement the community's Strategic Vision in a way that is sustainable over the long term.

COMMUNITY ENGAGEMENT:

Appropriate Depth of Engagement

Inform (one-way conversation) – no feasible alternatives available due to legal/regulatory restrictions, standards and best practices, or resource limitations; the community will be made aware of the project.

Engagement/Communication Tools

Social Media, Neighborhood Meetings, Website, Mailers, Lunch Time Live, etc.

FISCAL IMPACT:
