

**TO:** Honorable Mayor and City Council

**FROM:** Laurence Shaffer, City Manager

**SUBJECT:** Martin Luther King Jr. Drive Reconstruction Project Bid Tabulation

**SUPPORTING PERSONNEL:** W. Christopher Barnes, Director of Transportation and Utilities

**ACTION RECOMMENDED:** That City Council:

1. award a construction contract subsequent to approval of Resolution No. 5 of Special Assessment District 998-R for the Martin Luther King, Jr. Drive Reconstruction Project to Hoffman Brothers, Incorporated, of Battle Creek Michigan in an amount not to exceed \$379,920;
2. approve a contract amendment with Wightman & Associates, Incorporated, in the amount not to exceed \$44,300 to perform construction engineering services for Martin Luther King, Jr. Drive;

and authorize the City Manager to sign all other documents related to this project on behalf of the city.

As requested by the adjoining property owners, the City Administration initiated the reconstruction of Martin Luther King, Jr. Drive from Constitution Boulevard to Ring Road to bring the existing private street up to city standards for conversion to a city street. The project is being funded through a special assessment to the benefiting parcels adjacent to Martin Luther King, Jr. Drive and entails the reconstruction of the entire project length, curb and gutter replacement, storm drainage improvements and restoration.

In the State of Michigan, street conditions are rated using PASER (Pavement Surface Evaluation Rating) system. The standard breakdown for the PASER ratings with a general description are as follows:

| Rating | Description                                                                   |
|--------|-------------------------------------------------------------------------------|
| 9-10   | Excellent (new pavement)                                                      |
| 8      | Very Good (little to no maintenance required)                                 |
| 6-7    | Good (sound structural condition with crack seal maintenance)                 |
| 4-5    | Fair (candidates for pavement overlay)                                        |
| 3      | Poor (needs patching and repair to remove failed areas prior to an overlay)   |
| 2      | Very Poor (severe deterioration, needs reconstruction with total base repair) |
| 1      | Failed (requires total reconstruction)                                        |

Although Martin Luther King, Jr. Drive is not yet a city street and has not previously been evaluated for a PASER rating, on a scale of 1-10, it would receive a PASER rating of 1, which means it is in very poor condition and in need of major reconstruction. The rehabilitation of this section of roadway will address structural breakdown and strengthen the base material prior to new asphalt being applied. Existing curb and gutter that has deteriorated or does not drain properly will be replaced and storm drainage improvements will be constructed. This project meets standard asset management strategies for this rating and will bring the road back to a 9-10 PASER rating when the project is complete.

On November 13, 2015, a contract in the amount of \$19,150 was awarded to Wightman & Associates for the design engineering of the project. Project design is now complete and to provide project continuity, a proposal from the firm was solicited to administer the required construction engineering. A proposal in the amount of \$44,300 was received and is considered favorable with the amount of work needed for the size and the complexity of the project. Wightman & Associates has successfully performed similar type of engineering services in the past for the city with the most recent being Oakland Drive from Vincent Avenue to Kilgore Road.

On February 25, 2016, bids for the construction work were received. Six contractors bid on the project with the low bid submitted by Hoffman Brothers, Incorporated, of Battle Creek, Michigan in the amount of \$379,920. Hoffman Brothers, Incorporated, has successfully completed many similar projects for the city, including the South Westnedge Avenue project completed last summer. If awarded, the project construction will begin in the spring 2016 and be completed by July 2016.

Therefore, it is recommended that upon acceptance of Special Assessment Resolution No. 5, City Council award a construction contract to Hoffman Brothers, Incorporated, for the Martin Luther King, Jr. Drive Reconstruction Project in the amount not to exceed \$379,920, approve a contract amendment to Wightman & Associates, Incorporated, in the amount not to exceed \$44,300 to perform construction engineering services for Martin Luther King, Jr. Drive and authorize the City Manager to execute all documents related to the contract on behalf of the city.

**FUNDING:** The project will be funded through special assessment to adjacent property owners and developer contributions per the Development Agreement approved December 15, 2015.
