

TO: Honorable Mayor and City Council

FROM: Pat McGinnis, City Manager

SUBJECT: New Public Works facility and campus

SUPPORTING PERSONNEL: Rodney Russell, Director of Public Works

ACTION RECOMMENDED: Award a contract to Abonmarche Byce in the amount of \$160,837.00 for Professional Architectural and Engineering Services for the new Public Works facility and campus and authorize the City Manager to execute all documents related to this action on behalf of the city.

The current DPW facility, dating back to 1969, has served its purpose well for decades. However, its age and limitations are becoming increasingly apparent, posing challenges to safety, operational efficiency, and staff welfare. In August 2023, the City Council approved the purchase of three properties on Portage Industrial Drive for the development of a new DPW campus.

The 2024 RFP Professional Architectural and Engineering Services for the new Public Works facility and campus will allow the selected firm to develop a building program including a conceptual design. The firm will work with the city and make recommendations based on the conditions, program, schedule, and budget. The selected firm will also be required to prepare schematic design solutions that will provide a visual depiction for consideration and presentation for the City of Portage.

A request for proposals was posted on BidNet where 535 suppliers were matched and notified of this project. Additionally, 37 known local contractors were also notified. Bids were received from Abonmarche Byce, Progressive AE, R.E. Warner & Associates, Icn, and Hobbs+Black Architects, with the low bid coming from Abonmarche Byce in the amount of \$160,837.00. Abonmarche Byce has successfully completed numerous previous construction projects for the city.

It is therefore recommended that City Council award a contract to Abonmarche Byce in the amount of \$160,837.00 for the Professional Architectural and Engineering Services for the new Public Works facility and campus and authorize the City Manager to execute all documents related to this action on behalf of the city.

FUNDING: Funding of \$100,000 will be available in the FY 2024-2025 CIP budget, the remainder supplemented by excess revenue collected during FY 2023-2024.
