

TO: Honorable Mayor and City Council

FROM: Adam Herringa, Acting City Manager

SUBJECT: 2027 Local Streets Reconstruction Program – Tabulation of Proposals

SUPPORTING PERSONNEL: Kendra Gwin, Director of Transportation & Utilities

ACTION RECOMMENDED: Award a contract to perform engineering services for the 2027 Local Streets Reconstruction Program to Prein & Newhof, Kalamazoo, Michigan in the amount not to exceed \$190,000 and authorize the Acting City Manager to execute all documents related to the contract on behalf of the city.

The FY 2026-2027 Capital Improvement Program budget includes funding for the 2027 Local Street Reconstruction Program. The project involves milling and resurfacing the streets, storm sewer improvements, the addition of sidewalks where gaps exist, and sidewalk ramp improvements to ensure compliance with the Americans with Disabilities Act.

Local street reconstruction projects are selected based on pavement conditions. In the State of Michigan, street conditions are rated using the PASER (Pavement Surface Evaluation Rating) system. The standard breakdown for the PASER ratings with a general description is as follows:

Rating & Description

- 9-10: Excellent (new pavement)
- 8: Very Good (little to no maintenance required)
- 6-7: Good (sound structural condition with crack seal maintenance)
- 4-5: Fair (candidates for pavement overlay)
- 3: Poor (needs patching and repair to remove failed areas prior to an overlay)
- 2: Very Poor (severe deterioration, needs reconstruction with total base repair)
- 1: Failed (requires total reconstruction)

On a scale of 1-10, the streets in the 2027 Local Street Reconstruction Program have a PASER rating of 2–3, which is poor condition. The resurfacing of these sections of roadway will improve the structural strength of the pavement, add longevity to the pavement life and provide a smooth driving surface. This project meets standard asset management strategies for this rating and will bring this roadway to a 9 PASER rating for resurfaced streets when the project is complete.

On August 13, 2026, five proposals were received for design and construction engineering services for the 2027 Local Street Reconstruction Program. Based on a review of the proposals, staff has determined that the proposal from Prein & Newhof in the amount of \$190,000 best fits the needs of the project. Prein & Newhof has significant experience with the city's policies and procedures and is pre-qualified with the

Michigan Department of Transportation.

It is therefore recommended that City Council award a contract to perform engineering services for the 2027 Local Streets Reconstruction Program to Prein & Newhof, Kalamazoo, Michigan in the amount not to exceed \$190,000 and authorize the Acting City Manager to execute all documents related to the contract on behalf of the city.

FUNDING: Sufficient funding exists in the FY 2026-2027 Capital Improvement Program budget.
